

RATIONALE

BIOPESTICIDE STRATEGISTS

British Crop Production Council promotes the use of good science and technology in the understanding and application of effective and sustainable crop production.

BCPC Manual of Biocontrol Agents

BCPC Manuals: Promoting the science and practice of sustainable crop production

- Pesticide Manual
- Manual of Biocontrol Agents
- GM Crop Manual

UK Pesticide Guide – in UK

IPM toolbox to support sustainable agriculture

The fifth edition of the *BCPC Manual of Biocontrol Agents*, with significant changes to its format and content:

- You can now access it from your computer or smartphone.
- The data base contains only active substances that are registered (or, for macro-organisms, those that meet the applicable regulatory requirements).
- Details of products are included for the first time.
- This exciting new resource will be useful for growers, researchers and regulators alike.
